

WALKER AGAIN SAYS

HE IS FOR HELM

Though Petitions are Being Circulated Seeking to Put Him on Prohibition Ticket.

Petitions have made their appearance in this county, and it is understood in other counties of the district, also, asking that the name of Rev. D. M. Walker, pastor of the Christian church of this city, be placed upon the ballot in November as the candidate of the Prohibition party for Congress. Mr. Walker, however, denies any knowledge of the source of these petitions, and declares that he will not accept such a nomination if it is tendered him. He reiterates his statement made before the democratic primary that he is for Congressman Harvey Helm for re-election, and will vote for him in the final election as he did in the primary held on August 3rd. Mr. Walker declared that the position of Mr. Helm on the Shepard-Keyton bill was such that every temperance man could support him, and he has not changed now from the position which he took before the primary.

Mr. A. W. Carpenter, the real dyed-in-the-wool Prohibition leader of this part of the state, says that he knows nothing of the petitions seeking to place Mr. Walker's name on the congressional ballot. It is the understanding here that they were prepared in Lexington, probably by Mrs. Frances E. Beauchamp and sent to the Eighth district for circulation.

Some Watermelon. This

Port Worth, Texas, Sept. 2.—Sixty-six railroad employees "sat down to banquet" on one gigantic watermelon here Sunday, and all had their fill. The melon, one of the largest ever raised in the United States, weighed 140 pounds and came from the farm of John McKnight, a cotton belt conductor, who has a patch of enormous melons near Taylor, Texas. C. H. Lusk, Terminal Passenger Agent, refused to believe McKnight's story about the size of his products and to let the conductor brought one on to Ft. Worth. The Texas melons this year are of unprecedented size.

Many Going to Circus.

Ringling Bros., circus is attracting unusual interest this season because of its many new features and the new aspect given the show by the addition of the great spectacle, "Joan of Arc." The circus will be seen in Richmond, Wednesday 4th, and at Lebanon, Thursday 5th and this city and surrounding country will be well represented as it always is when Ringling Brothers are within excursion distance.

There will be a new parade in the forenoon three miles in length. The menagerie is practically twice as big as it was last year and contains many specimens of strange animal life new to American zoos. Audiences will be entertained by 375 of the greatest of Europe's circus artists. The great feature of the show is of course the newly added spectacle, "Joan of Arc," with a trainload of special scenery, costumes and stage properties and a cast of 1,200 characters. There is also a ballet of 200 dancing girls, a chorus of 400 voices and an orchestra of 100 soloists. This is the greatest dramatic and spectacular production ever presented in America, enacted on a specially built stage bigger than a hundred ordinary theatres. It is made portable so that it can be erected in the main tent each morning.

"Joan of Arc" tells a masterful story from French history in a thrilling and dramatic way and with the wonderful illusion of tons of special scenery and stage devices. In the great battle scene the audience is held spellbound by the realism of the scene, while the enactment of the coronation of Charles VII is beyond question the most sumptuous and inspiring stage picture ever seen.

Mercer Woman Kills Husband

Harrodsburg, Ky., Sept. 2.—William A. Russell, who has conducted a soft drink house and lunch stand here for about a year, was shot and killed about 6 o'clock Thursday evening by his wife. For a week or more Russell had not been staying at home, and when he went to the house Thursday evening his wife met him at the door, and according to her statement she asked him if he had come home to be a gentleman and treat his family right. He replied, Mrs. Russell says, that he had come to kill her and the children. Mrs. Russell had concealed a revolver behind her and immediately opened fire upon her husband.

Cal Miracle Electrocuted

Cal Miracle, of Bell County, was electrocuted at the Eddyville penitentiary last Friday. He died without making any statement. The crime for which Miracle paid his life as a penalty, was one of the worst in the criminal annals of Bell county. On a quiet Sunday afternoon in August of last year, he went to the home of Matthews Jones, on Goodwin branch, a neighbor, and without provocation shot him to death. He was then shot, in cold blood, a helpless woman—Mrs. Dicie Partin, who he met in the road after leaving Jones' home. After killing these persons, Miracle went to his home, told his family what he had done, bid them good-bye and left. For several weeks after the crime it was believed that Miracle was hiding out in the mountains near his home, and his family was kept under surveillance, but no trace of him could be found. He was finally turned up in Birmingham, Ala., as he was buying a ticket to farther south, being identified by J. L. Givens.

Author Changed Bill Himself

Frankfort, Ky., Sept. 2.—The misunderstanding over the Frost whisky act, the wording of which was said to have been changed, has been cleared up, and it is learned that no one is at fault, but that the changed purpose of the bill was the result of the author's wishes.

The Senate Journal of March 5, shows that the bill was called up that day for passage and that Senator Frost offered an amendment to strike out the words "or delivery to another" in line two of section one and by adding to section three two words: "Provided, however, that the provision of this act shall not apply to such figures prescribed on prescription from a regular practicing physician." The amendments were adopted.

According to a special to The Citizen from Raleigh last night, Thomas W. The fact that Mr. Varnon and Mr. Campbell passed will be learned with interest in Asheville. The former is the son of Dr. and Mrs. W. E. Varnon and the latter is the only son of Dr. and Mrs. R. F. Campbell. Both are alumni of Washington and Lee university. Mr. Varnon has been a student at that institution for the past several years, taking an academic course and later studying law.

It was probably because of his great love for dogs, and its being reciprocated that got George Engleman in trouble. George is a gentleman of color and would always have what a dog had with himself no matter who else suffered. When these bloodhounds were here last week Mr. Lair couldn't get them past his house that George lived in. So they arrested George and took him to Danville where he waived examining trial and is in jail because he couldn't give the \$200 bail. George is charged with breaking into the storeroom of Mr. H.
